

DADDY PETE'S HARDWOOD MULCH

Enhance the look of your landscape with Daddy Pete's Hardwood Mulch.

Mulch provides a number of benefits to the landscape. From the water conservation standpoint, mulch prevents evaporative water loss from the soil. It also prevents certain soil-borne diseases by acting as a barrier between the soil and the plant. It insulates the roots of plants from extreme heat and cold, and it reduces weed competition by blocking light and by preventing some weed seeds from germinating.

Mulched barriers around trees and structures also prevent mowers and trimmers from causing mechanical damage.

One bag covers approximately 6 sq. ft. when applied 4" deep.

INGREDIENTS

- HARDWOOD MULCH

AVAILABLE BAG SIZES

PRODUCT USES

Mulching
