

MIXES

DADDY PETE'S PERENNIAL PLEASER

Daddy Pete's Perennial Pleaser is a rich, organic blend of premium aged pine bark fines, Daddy Pete's Composted Cow Manure, perlite, vermiculite, and dolomitic lime.

This organic blend can be used for most perennials and herbaceous crops. It has a greater ratio of perlite than Daddy Pete's Nursery Blend, which creates more aeration for your soil. Many perennials need a well-drained soil, and Daddy Pete's Perennial Pleaser provides ample drainage, while providing great moisture retention.
